THE BRITISH COLUMBIAN.

No. 79, Vol. 3. NEW WESTMINSTER, SATURDAY, NOVEMBER 14, 1863. Price 6d. or 12 cts.

THIS JOURNAL is published every Wednesday and Saturday morning, and despatched by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The utmost care is taken to procure authentic information from all the mining districts of British Columbia, and every exertion made to obtain reliable statistics respecting the country generally.

The British Columbian.

NEW WESTMINSTER, SATURDAY, NOV. 14, 1863.

THE LEAVE-TAKING.

On Wednesday, as we had previously announced, the *Enterprise* left her dock at noon, and H. M. ship of war *Cameleon* weighed anchor and steamed down the harbor about an hour later. Upon the former were Colonel Moody and family, with Captains Grant, Parsons and Luard. The concourse of people upon the wharf was such as to make one wonder where they all came from, and in the throng we perceived some of the fair sex, heroically determined to show all possible respect to the gallant band on board. Incessant shaking of hands was kept up until the steamer began to move, when, in response to a suggestion from a prominent citizen, three hearty cheers, and two more, were given for Colonel Moody and his officers, three for Mrs. Moody, and as many for the "noble boys" who stood by the side of their papa upon the deck. Then commenced the waving of handkerchiefs and hats, which was kept up till the steamer was well under weigh, and a large portion of the crowd lingered on the wharf watching her until she disappeared from view.

A little before one o'clock the *Cameleon*, on board of which were Lieut. Palmer and bride, Dr. Seddall and some fifteen of the Sappers, came sweeping gracefully down within a cable's length of the levee, which was by this time lined with human beings. As she passed the Pioneer wharf the order was given to "man the rigging and give three cheers," when up shot a hundred "blue-jackets" as if by magic, and out rang three hearty cheers, such as only Her Majesty's seamen can give, in response to which the crowd on shore cheered most lustily, the excellent R. E. Band the while playing those beautiful and, under the circumstances, touching airs, "Home again," "Home, sweet Home," "Auld Lang Syne" and "God Save the Queen." In every direction, from window and balcony, was to be seen the waving of handkerchiefs and hats, accompanied by many a truant tear. But, oh! the reaction. When all was over and the bustle and excitement, consequent upon leave taking, had subsided, a feeling of sadness and gloom seemed to pervade the entire community, and people wended their way home with grave countenances and drooping heads, looking as though each had lost a near and dear friend that day.

The departure of this corps leaves a sad blank in our little community, and it is not surprising that all should feel it keenly. The Royal Engineers came here at the first, when the site of this city was a trackless forest. They have been with us ever since, through sunshine and shade, and by their kindly and gentlemanly bearing have won the respect and esteem of all. The Colonel and his officers, with a section of the men, are gone, and all we can now do is to cherish the remembrance of their five years' sojourn amongst us, and wish them a pleasant voyage to our dear fatherland and happiness and success through life. To those of the corps who remain with us we again offer the right hand of fellowship. By pursuing a line of steady, persevering industry, they are certain of success, and will have no cause to regret the choice they have made. The change to them, in being thrown thus suddenly upon their own resources, after many years of military life, is very great, and will doubtless be somewhat trying at first. But brave hearts and willing hands will ultimately overcome every difficulty. Let them remember that while they look back, with pardonable pride, to past associations, *onward* must be their motto. They are now colonists, and, as such, must carve out their way in this new land; and if they only maintain the same status as civilians which they have done as soldiers we shall have abundant cause to be proud of them as fellow citizens.

CAPITAL FOR THESE COLONIES.—"The Financial Industrial and Commercial Company (Limited) of Vancouver Island and British columbia" is the title of a new joint-stock company which has just been organized in London, for the purpose of engaging in Trading, Lumbering, Fishing, Mining, and settling lands in these colonies. The capital is £100,000 in 10,000 shares of £10 each—bankers, the Bank of British Columbia.—*British Colonist.*

NEW WESTMINSTER, SATURDAY, NOV. 14, 1863.

WE NEED A MILITARY OR NAVAL FORCE.

While disclaiming any desire to excite unnecessary alarm in the minds of settlers, we feel that we would be wanting in our duty as a public journalist did we not point out in plain terms the necessity for a military force in this Colony. It is no secret that anything but a good feeling exists amongst the native tribes towards the Government. Nor is this matter of surprise. The conviction that they have been deprived of their lands, driven from their hunting grounds, and many of their people, both in this and the neighboring Colony, made the victims of what we can hardly designate by a milder term than "judicial murder," is not confined to the aborigines, a conviction which, rankling in the savage mind, is pretty certain, sooner or later, to produce bitter fruit. While the corps of Royal Engineers was stationed here there is no doubt that it exerted a salutary influence upon these people, and prevented them from conceiving any idea of seeking to avenge their wrongs upon the "pale-faced intruders." But now that that corps is broken up and the Colony is left entirely destitute of any protective force whatever, we cannot but view the position of affairs in this Colony, so far as respects the Indian tribes, without more or less apprehension. We have heard all sorts of stories within the last day or two about the suspicious and warlike movements of the natives, to which, however, we are not inclined to attach very much importance. But, apart from these apprehensions, which may or may not be well founded, with a tolerable knowledge of the character of the North American Indian, and with the history of other Colonies before us, it would be idle to wrap ourselves up in a fatal security and try to persuade ourselves that there is no danger. Had the Government pursued a more just and systematic policy with the native tribes of these Colonies we grant there would be little room for apprehension, for when dealt with in a fair and dignified way they are naturally peaceably enough disposed. Such however, unfortunately, has not been the course adopted by the Government either of British Columbia or Vancouver Island. The lands belonging to the Indians, including their camping grounds and cultivated patches, have been *wrested* from them; and although in some instances they were promised remuneration, yet these promises have never been redeemed, which only makes the matter worse. Where murders have been committed by wicked Indians, some of them outlaws amongst their own people, whole tribes have been indiscriminately pursued by officers of the law and entire villages bombarded and fired upon by Her Majesty's ships of war, upon a *vague suspicion* that the murderers were sheltered, and because the men defended themselves and their wives and children against these sudden and unexplained attacks, they were placed upon their trial without counsel, or any one to take their part, sentenced upon the most shaky evidence, given by men who did not understand their language, and who knew little or nothing about the case beyond disconnected and unintelligible admissions which they had improperly *extorted* from the poor creatures while in irons, and hanged like so many dogs in the face of a strong recommendation to mercy from the jury, backed up by a numerously signed petition from the people of Victoria.

These are a few of the many acts of our Government which have completely alienated the hearts of the aborigines from the "King George man," towards whom they were at first most favorably disposed, and these are bitter facts which rankle in hearts that seldom forgive an injury, real or imaginary, and to remove which it will require something more than an occasional dole of "biscuit and molasses" from the hand of Mr. Douglas.

As we have said, we have no desire unnecessarily to alarm the colonists upon this point; but it is always best to look such matters honestly, and timely, too, in the face. And, as "an ounce of prevention is better than a pound of cure," it will be our wisdom to adopt whatever precautionary measures may lie within our reach. This is the reason why we so warmly advocated the formation of a volunteer rifle company, which is now, happily, progressing most favorably. But although such a company, even in its incipient stages, is undoubtedly better than nothing, it obviously fails to meet the case in the present state of the Colony. We ought to have stationed here a military force or a ship of war, either of which would have the desired effect upon the Indian tribes.

We need only point to the present unhappy state of things in New Zealand in order to show the necessity of adopting some rational and just policy towards these people. That difficulty, which has already cost Britain millions of gold and thousands of lives, and the end of which is not yet, took its rise from what seemed at the time to be trivial matters, very much of the same nature as those of which we complain in respect to the Indians of these Colonies. And surely it is better that preventive measures should now be resorted to than incur the risk, however small it may appear to some, of being involved in expensive and sanguinary Indian difficulties. Let the volunteer movement go on, by all means; but do not rest satisfied with that. If our own feckless Government is indifferent to the importance of this subject let proper representations be made to the Imperial Government, and it will be very strange indeed if we are left long without any kind of protection. We are a small, scattered British population of some eight or ten thousand, in the midst of an Indian population at least five times as great; and their hearts have not only been alienated from us, but they have actually been brought to look upon us as enemies, come to rob and murder them. The sooner this difficulty is grappled with the more easily will it be put to rights. A conciliatory and just Indian policy, inaugurated soon and properly carried out, will be the means of avoiding much future trouble. But we want a force, meanwhile, in order to keep all quiet.

New Advertisements.

TO THE ELECTORS

—OF—

DOUGLAS, PEMBERTON & LILLOOET

GENTLEMEN:—I return thanks for the honor you have done me by electing me your Representative in the Legislative Council of British Columbia.

Having been amongst you so lately and fully explained my views, and received from yourselves what measures you wish me to bring forward to advance the interests of the District, I have only to say that I will, to the best of my ability, endeavor to get such measures into effect, if your choice is approved of by the Governor. I received no opposition at Douglas and Pemberton, the electors of which places passed a qualification for members and voters; I was elected at each place unanimously, and a paper has been signed by 36 British subjects, answering to the qualifications passed, at Douglas, and 27 at Pemberton, to be used in the event of any oppositon elsewhere. At Lillooet I met with opposition; the Magistrate there having decided that he required no qualification for Members except being a British subject, and that no distinction would be made between British and foreign votes. I received 47 votes for the Town of Lillooet, comprising most of the mercantile community, for which I return the electors my best thanks, against 51 from Town and District for Dr. Jones, one of my opponents; but my list for Lillooet District has not at present been received by the Magistrate; it was in the hands of an elector, resident and owning property in the District, and when last heard of rumour stated it had 30 to 40 signatures. It was expected to arrive a few days after I left Lillooet; it has therefore either miscarried or is detained by the difficulty of communication. Had it come to hand I should have had a large majority in Lillooet and the District. However, in case these votes are ruled out from not arriving before the 1st November, the votes for the whole District will stand:

H. Holbrook, Douglas, British votes,		36.
" Pemberton, "		27.
" Lillooet, mixed,		47.
		110.
Dr. Jones, Lillooet, mixed votes,		51
Majority for H. Holbrook,		59.

I have therefore now to thank you for the honourable position you have placed me in.

I remain

your very obedient servant,

H. HOLBROOK.

New Westminster, 11th November, 1863. no14

MANHOOD

—AND—

THE VIGOR OF YOUTH RESTORED!

IN FOUR WEEKS, BY

DR. SICOTTE'S ESSENCE OF LIFE.

DR. SICOTTE (OF PARIS) AFTER YEARS OF earnest solicitation, has at length acceded to the urgent request of the American public, and appointed an Agent in Toronto for the sale of his valued and highly prized Essence of Life. This wonderful agent will restore Manhood to the most shattered constitutions, whether arising from excesses, the effects of climate, or natural causes. The time required to cure the most inveterate case is four weeks; and, if used according to printed instructions, which are very simple, failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effects are permanent. It is acknowledged by the medical press to be the greatest discovery ever made. Its developing powers are miraculous. Success, in every case, is as certain as that science overthrows ignorance.

Dr. Sicotte's Essence of Life is sold in cases, with full instructions for use, at $3, or four quantities in one for $9, and will be sent to any part, carefully packed, on receipt of remittance to his accredited agent.

The British Columbian.

NEW WESTMINSTER, SATURDAY, NOV. 14, 1863.

ARRIVAL OF THE 'RELIANCE.'

GOOD NEWS FROM SHUSWAP.

The steamer *Reliance* arrived last night from Yale with 68 passengers and $45,000 in treasure. The excitement in Hope, Yale and Lytton respecting the Shuswap diggings is on the increase. Every one who can get away is leaving for the new Eldorado, and packing is being carried on with great spirit. Parties are coming in almost every day and buying up animals with which to carry out provisions, paying their bills in Shuswap dust. Miners are making as high as $60 a day to the rocker in many places, and there is no difficulty now in finding $20 diggings. These mines are drawing off all the surplus population of the towns on the Lower Fraser, and many who are on their way down from Cariboo are turning aside thither. There is no longer room to doubt the richness and great extent of the Shuswap diggings; and their being so easy of access both as to the locality and shallowness of the pay dirt will make this the most popular mining region yet discovered in the Colony.

ARRIVAL OF MORE TREASURE.

The str. *Henrietta* arrived from Douglas on Thursday with 124 passengers, amongst whom were Mr. E. T. Dodge with $26,000 and Mr. Lomaster with $8,000. There were many smaller sums in the hands of miners, making an aggregate of about $60,000 by that steamer. We have no later news of importance from Cariboo. Snow was falling and the winter appeared to have fairly set in, although the weather was pleasant and far from severe. Altogether this season has been a very fine one in that section of the country. There will not nearly as many winter on Williams Creek as was at first supposed. The thousand have now dwindled down to about seven hundred, and it is estimated by some that no more than four hundred will remain there through that season of the year.

THE "CALEDONIA."—We are sorry to hear that this steamer met with another misfortune. After repairing the break which occurred on Tuesday she went down to the mouth on Wednesday for the purpose of mooring a buoy. When she reached the Sand Heads her machinery again gave way. She was at once put about and reached shelter, but before doing so slipped her cable. The engineer succeeded in repairing the machinery sufficiently to enable her to moor the buoy next morning and return to this port. She went down on Thursday with a large number of passengers and assayed to cross the gulf, but wisely deeming discretion the better part of valor, she returned yesterday. The weather has been very wet and stormy the past few days.

SHIPMENT OF TREASURE.—The *Enterprise* will carry down over $140,000 in treasure to-day. DIETZ & NELSON'S EXPRESS takes upwards of $40,000.

THE RIFLE COMPANY.—It affords us pleasure to state that the efforts to organize this company have, so far, proved very successful. The meeting on Wednesday evening was very large, and the number of enrolled members had reached 59 yesterday.

THE BIBLE.—A course of sermons will be preached at Holy Trinity Church on the next and following Sundays, in the morning, on the following subject. "The Bible—what is it? What is its authority? and how is it to be used?"

QUARTZ LEADS AT THE HEAD WATERS OF THE LILLOOET.—A few days ago a party started out with an Indian guide who engaged to conduct them to gold-bearing quartz leads on the head waters of the Lillooet river. Before starting they gave him distinctly to understand that if he failed in making good his promise they would *mamiloose* him. He readily accepted these terms, and they accordingly departed on an exploring expedition. We shall doubtless have the result in a few days.

ATTORNEY-GENERAL CARY.—We see by the Victoria papers that this gentleman is carrying on his usual absurd pranks in the Supreme Court in that City. It is surprising that Chief Justice Cameron will tolerate such disgraceful conduct as transpires in his Court.

THE H. B. CO. STEAMER "LABOUCHERE," Capt. Lewis, has returned from a trading cruise on the North-west coast of this Colony. She brought down 60 passengers, chiefly Stekin miners, with $4000 in dust, and a valuable cargo of skins. The Indians were troublesome, and several murders rumored, but these rumors lack confirmation.

WHOLESOME IDLING AT THE SEA-SIDE.—Your busy man, or rather your man who really works hard in his profession, if he be wise and brave, leaves the wonders of the sea-shore alone when he comes to rest. Lying on the rounded shingle, he lets his mind uncoil and gather unconsciously suppleness and strength; he lets it stretch and sun itself without interruption. And he is no loser, for so surely as he is content and not ashamed to sit, may-be for a whole bright forenoon, doing nothing, thinking of nothing, the unfolded mind will have filled itself like a sleeping net; and when afterwards he gropes within for thought and illustration he will find a good store. The dusty faded chambers of his brain will have become wholesome and fresh. He will return to the operating-room, the law court, the editor's den, with an atmosphere of salt and sunshine about him. Of course, some active minds must grub about the rocks and fish in the clear pools of brine left by the tide, but I beg once for all to protest against the sweeping condemnation uttered by some people, who would employ every idle saunterer on a fruitful beach. —*Once a Week.*

VOLUNTEER RIFLE COMPANY MEETING.

In accordance with a requisition numerously signed and presented to the Council, a meeting was called by the President, in Mr. Millard's stone building, for Wednesday night, at 7 o'clock, to take into consideration the best means of forming a Rifle Corps in this town. The subject excited much interest and therefore there was a crowded meeting.

Mr. Dickinson in a few words stated the object of the meeting, and asked those present to propose a chairman.

Proposed by Mr. John Ramage and seconded by Mr. Manson, that Mr. Clarkson take the chair.—Carried.

Proposed by Mr. Manson, and seconded by Mr. V. Hall, that Mr. Wm. Fisher act as Secretary to this meeting.—Carried.

Mr. Henry Holbrook then moved the following resolution, which he prefaced by showing in a few pointed remarks the necessity of forming at once a Rifle Company, the advantages proceeding therefrom to all those enrolled therein, adding that we could not, in his opinion, have selected a more opportune time to commence the movement than the day on which we were deprived of the services of the Royal Engineers, many of whom he trusted would, although no longer soldiers, become Volunteers:

Resolved,—That this meeting considers it is necessary to form a Volunteer Corps for New Westminster. Seconded by Mr. Morey and carried.

Mr. J. Ramage, after a brief address, proposed, That a Rifle Corps be formed, called the "New Westminster Volunteer Rifle Corps, No. 1," and that a list be prepared immediately for the signature of those wishing to become members. Seconded by Mr. Johnston and carried.

Mr. Manson then addressed the meeting and called upon them to come forward at once and enroll their names, as it would be advisable to make immediate application to government for arms, &c., and concluded some excellent remarks by proposing the following: That all parties desirous of becoming members of the No. 1 New Westminster Rifle Corps do now come forward and enroll their names. Seconded by Mr. Elliott and carried.

Mr. Manson then proposed the following:

Resolved,—That the following gentlemen be appointed a committee to prepare resolutions and to submit them to the Corps at as early a day as possible for the future government and proper organization of the Company: Messrs. John Ramage, Robt. Greig, H. Holbrook, Wm. Fisher, and — Morey. Seconded by Mr. Morey and carried.

Proposed by Mr. H. Holbrook, that the list of members be left at Mr. Clarkson's store, and that the committee procure the names of those wishing to become members and prepare rules and regulations for the guidance of the Corps, to be submitted to the members at as early a day as possible. Seconded by Mr. John Ramage and carried.

The Secretary then read the name of those who had enrolled themselves at the meeting, 26 in number, and after three hearty cheers for the Queen the meeting, which was most unanimous and orderly throughout, separated.

ADDRESS FROM THE ST. ANDREW'S SOCIETY OF NEW WESTMINSTER TO COL. MOODY, R. E.

To Col. Moody, President St. Andrew's Society, New Westminster:

SIR,—The members of the Society desire to express to you on this occasion a mixed feeling—one of regret at your departure from the Colony, the other of congratulation that you have such an early opportunity of visiting the land of our birth.

To those of us who were born on the soil of Scotland there is indeed a feeling of enchantment attached to the idea that you, our first and only President, should have been the first to visit where our fond imaginings still wander; and it will be equally a source of gratulation to you to know that the descendants of those who left their native land many years ago cling warmly to the traditions of the country of their fathers and to its history, with that tenacity of love that distinguish Scotchmen wherever fortune, or their own erratic disposition, may lead them.

To you we feel indebted for many things; but mainly for having lent your distinguished name to our Society, thus blending the link of our Association with the land of our birth, by giving it that high social consideration in this the country of our adoption which you only could best confer.

May you, sir, have continued prosperity in whatever career you may be called upon to occupy, and you and Mrs. Moody and family have our best wishes for your and their happiness.

I remain, on behalf the members of the St. Andrew's Society,

Yours very respectfully,
W. G. PEACOCK,
Vice-President.

W. GRIEVE, *Secretary.*
New Westminster, Nov. 7th, 1863.

(REPLY.)

To the St. Andrew's Society, New Westminster:

GENTLEMEN,—I beg to thank you for the very kind address presented to me.

It is not impossible I may ere long resume military duties in Scotland. When there, be assured it will be a great delight to me often to tell how in this distant region her sons cherish a never-waning love for the home of their forefathers, and how worthily they represent old Scotland in all things.

I shall have the happiness of telling that your Society flourishes here as it does in every corner of the world—that hearty brotherhood awaits each Scotchman in this Colony—that in sickness, need or sorrow, he will find his home in the sympathetic affection and in substantial aid from that brotherhood.

Accept my hearty wishes for your happiness and prosperity, and remember me in days to come as one of the old pioneers of British Columbia.

R. C. MOODY,
Colonel, R. E.

R. E. Camp, New Westminster, 10th Nov. 1863.

TO OUR CITY READERS.—With this issue commences the last quarter of the third volume of the BRITISH COLUMBIAN. We have therefore to request our city patrons to be prepared for a call from the Collector.

ESCAPE OF CRIMINALS.—The *Evening Express* of the 11th inst., contains a very sensible and called for leader upon the number of criminals who have effected their escape in this Colony owing to the negligence and incapacity of subordinate officers of the law.

ACTION IN THE NAME OF QUEEN VICTORIA.—A DISPUTED LEGACY.—The tribunal of the Seine has just pronounced a decision in a somewhat extraordinary will dispute. An English lady—who had been twice married, the first time to a wealthy English gentleman, and, after his decease to Comte de Silley, a French nobleman, died in October last, leaving in her will a sum of 100,000 francs (£4000) to Queen Victoria, to be employed for the benefit of the London poor. The other legatees under the will and the executors wrote to the English Ambassador to acquaint him with the fact, information of which was in due time transmitted to her Majesty, who decided to accept the legacy. One of the legatees then insinuated that her Majesty should let the relatives have the money. The English legal authorities were consulted, and they gave the opinion that the relatives had no right to the money, of which the Queen was the sovereign dispenser, unless they came under the category of the poor. The general legatees then required the Royal signature legally affixed to a formal document, and they proceeded to summon the Queen to appear on the 2nd of July, either in person or by procuration. The summons was sent on the 22nd of June. The case then came before the tribunal of Seine, the plaintiff applying that an order should be made for the payment of the legacy to her Majesty's Ambassador. The legal representative of her Majesty proceeded to contend that the money should be paid over to the Ambassador, who was recognised by all legal authorities, many of whom were quoted as representing in everything the person of his Sovereign. A precedent was cited in which a legacy to the Pope of an estate had been given over to the Nuncio after some dispute. The question, the Queen's advocate contended, was not one of private law, but of international law. The advocate on the other side maintained that the legacy was made to the Queen as a private individual, and the intentions of testatrix would not be carried out unless her Majesty became personally the almoner of the sum left at her disposal. The Ambassador represented his Government—that is, the Chambers of his country, the Ministry, and the Royal person—but he could not represent one of those parties separately from the rest. The French law knew neither Sovereign nor Ambassadors. The Queen ought to submit to the requirements of that law, and to put her signature at the foot of a special and authentic procuration. That was the only guarrantee which the legatees could have that the sum left had passed into the august hands for which the testatrix had destined it. The president of the tribunal, M. Benoist, decided in favor of her Majesty, saying that an Ambassador represented his Sovereign, and that all he said and did was substantially said and done by his Sovereign.—*Ill. Lon. News.*

Poetry.

Lost in the Icy Sea.

[BY JEAN INGELOW.]

When sparrows build and the leaves break forth
My old sorrow wakes and cries,
For I know there is dawn in the far, far north,
And a scarlet sun doth rise;
Like a scarlet fleece the snow-field spreads,
And the icy founts run free,
And the bergs begin to bow their heads,
And plunge and sail in the sea.

Oh! my lost love, and my own, own love,
And my love that loved me so!
Is there never a chink in the world above
Where they listen for words from below?
Nay, I spoke once, and I grieved thee sore,
I remember all that I said,
And now thou wilt hear me no more, no more,
Till the sea gives up her dead.

Thou didst set thy foot on the ship, and sail
To the ice-fields and the snow;
Thou wert sad, for thy love did nought avail,
And the end I could not know,
How could I tell I should love thee to-day,
Whom that day I held not dear?
How could I know I should love thee away,
When I did not love thee anear?

We shall walk no more through the sodden plain
With the faded bents o'erspread,
We shall stand no more by the seething main
While the dark wrack drives o'erhead;
We shall part no more in the wind and rain,
Where thy last farewell was said;
But perhaps I shall meet thee and know thee again,
When the sea gives up her dead.

Charles Mackay on Canada.

In a London *Times* to hand by the last mail we find a letter written by Mr. Charles Mackay, from Niagara Falls, dated August 8th. The Doctor gives his opinion at some length on Canadian feeling with reference to the civil war, and the maintenance of the connection with the mother country. The Canadians know if they desired to separate from England, that neither a gun would be fired nor a sword raised to prvent them, consequently they think the war waged by the North for the restoration of the South at once illogical and cruel. All idea of annexation to the United States if it ever existed, has been swept away by recent events. The people are too well off to desire a change. "The 'canny' Scotch element" prevails largely amongst them. They look "before they leap." They prize the bird in the "hand above the two in the bush." The prevalent feeling against the United States has been largely increased by the bragadocia of the American press with regard to Canada. Should it ever be attempted to carry into practice the menaces thus indulged in, the Americans would find they had been marvellously deceived in the cherished notion that Canadians desire to exchange the Union Jack for the Stars and Stripes. Says Dr. Mackay:—

"At the first summons to arms, at the first unmistakable symptom that war is upon them, there is no reason to doubt that for every 20,000 men that Grest Britain shall send them, the Canadians will raise 100,000 to fight for their connexion with the mother country. Whether in such a contingency the Government at Washington attempted to seize Quebec or Halifax, or to march an army of occupation to Montreal, the Canadians, backed by the power of Great Britain, would be far more likely to annex to their territory the State of Maine than to be annexed or conquered by the Americans. Such, at least is the present feeling and conviction of the great majority of the Canadian people whether of British or French extraction. The Canadian Britons have has little liking for the "Yankees" as that entertained by South Carolina, while the most emphatic term of contempt which the French Canadian can use towards an American is conveyed in the word "Bostonais"—their synonym for all that is base and unworthy."

The ideas of Canadians tend in an opposite direction to the United States. They look to the establishment of a chain of Colonies extending from the Atlantic to the Pacific, all on British territory, and to this union under a son of Queen Victoria. The "balance of power" has by recent events been extended from the old world to the new. What Russia is to France, Canada will yet be to the United States. With a great British North American nation on one side, and with Mexico on the other, Dr. Mackay entertains the belief that the "Yankee Government, whether Republican or Imperial, may be taught to know its proper place in the world, and to keep it, without offence to its neighbors."—*Canadian Globe.*

THE SUFFERER'S BEST FRIEND.
HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach and Bowels.
These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alternatives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.
The wholesale effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.
Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmetical Affections.
These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency Diarrhœa and Dysentery.
Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disasterous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.
Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Female Irregularities	Retention of Urine
Asthma	Fevers of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throats
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symptoms
Colics	Indigestion	Tic Douloureux
Constipation of the Bowels	Inflammation	Tumours
Consumption	Jaundice	Ulcers
Debility	Liver Complaints	Venereal Affections
Dropsy	Lumbago	Worms of all kinds
Dysentery	Piles	Weakness, from whatever cause, &c., &c.
Erysipelas	Rheumatism	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Box.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box. au12

ALL CURES MADE EASY!!
HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.
No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.
These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.
Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.
After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps & all other Derangements of the Throat.
On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat: this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil and Swelling of the Glands.
This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action af purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands,	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquitoes and Sand-Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chiego-foot.	Lumbago.	Tumors
Corns (soft).	Piles.	Ulcers.
Cancers,	Rheumatism.	Wounds.
Chilblains,		Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilised world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

*** There is a considerable saving by taking the larger sizes.
